

10MWh Energy Storage Container Price Drop

Overview

According to the latest analysis by BloombergNEF (BNEF), prices have fallen 8% since 2024 to \$108/kWh, making them 93% lower than in 2010. Are energy storage systems reducing the cost of batteries?

The scale of the reduction suggests that in addition to the falling cost of batteries—BNEF's recent Lithium-ion Battery Price Survey found that battery pack prices fell 20% year-on-year to 2024, again the biggest drop recorded to date—energy storage system providers are working on cost reduction in other areas, Kikuma said.

How much does a turnkey energy storage system cost?

According to BloombergNEF's recently published Energy Storage System Cost Survey 2024, the prices of turnkey energy storage systems fell 40% year-on-year from 2023 to a global average of US\$165/kWh. The research firm said this was the highest annual drop since its survey launched in 2017.

Will a 60% tariff increase energy storage costs?

"What we found is that with the 60% tariff, the cost [of a turnkey energy storage system] increases by 60% compared to 2025, so this is quite a big cost jump if the US actually decided to do so," Kikuma says.

Will US energy storage growth slow down in 2026?

That means costs in 2026 would return back to 2024 levels which could slow down the growth in US energy storage deployments, but the analyst says that even so, BNEF anticipates that the momentum of the country's energy storage industry and growth in deployments would remain strong.

10MWh Energy Storage Container Price Drop

[Battery Energy Storage System Container Price: What Drives ...](#)

Oct 16, 2025 · Discover the 2025 battery energy storage system container price -- learn key cost drivers, real market data, and what affects energy storage container costs.

[Bigger cell sizes among major BESS cost reduction drivers](#)

Jan 30, 2025 · Trend towards larger battery cell sizes and higher energy density containers is contributing significantly to falling BESS costs.

5MWh BESS Container

1 day ago · Features 314Ah LFP battery cells, 20ft standard container design, high energy density, and multi-level safety. High corrosion-resistant and ...
