Overview

What is a 200W solar panel?

200W 12V solar panel is built predominantly for permanent installations on the roofs of 4WD, vans, caravans, campers, motorhomes, RV's, commercial service vehicles, large boats & yachts, powering 12V sealed lead-acid batteries that power devices such as 12V fridges, air-compressors, lighting and other 12V devices.

What is the weight of a 200W solar panel?

Most 200W solar panels weigh between 11kg and 12kg. A 200W solar panel literally can produce 200 Watts electricity, and its size and quantity of solar cells determine the panel's thickness and weight. Most panels are around 35mm thick, although they may vary slightly.

What is a 200 watt 12 volt solar panel?

□Generation □ A 200 watt 12 volt solar panel can generate and save an average of 228 units per year (depending on the season). □Design□ It is designed with new generation PERC cell technology which is better than other cell technology and also has higher efficiency than conventional PV modules.

What is a 12V 120W solar panel?

Ideally suited for a motorhome or large caravan. This 12v 120w solar panel is powerful enough to keep your battery charged over long periods away without starting the generator or plugging in to an external source. Comes with MC4 connectors so they are easily added to a string and protected from the wet weather.
