

MODERNIZATION SOLAR

## 220kw string inverter

## Overview

---

What is a 220 kW frequency drive inverter?

220 kW frequency drive inverter, 3 phase variable frequency drive 220V, 415V, 460V. Come with sensorless vector control mode, three phase inverter has RS485 communication and an IP20 enclosure rating.

What is a string inverter?

A string inverter, also known as an on-grid inverter or grid-tied solar inverter, converts DC power from solar panels into AC electricity for use. These string inverters work seamlessly with the electrical grid, ensuring high efficiency and compliance with anti-islanding protection.

What is the electronic screen of the 220 kW frequency inverter?

The electronic screen of the 220 kW frequency inverter is a key component in the 3 phase variable frequency drive control system, providing users with an intuitive and real-time information display.

How many strings can a 3 phase inverter have?

250-255kW three phase series string inverter have Maximum 28 strings input, support "Y" type connection in DC side. Maximum string input current 15A, support bifacial modules access. Supports anti-PID function to improve system efficiency.

## 220kw string inverter
