

250kW Folding Container Used in Afghan Cement Plant

Overview

How much does a new cement plant cost in Afghanistan?

Afghanistan: The government's Mines and Petroleum Ministry has awarded a contract for construction of a new 1Mt/yr cement plant in Kandahar Province. Bakhtar News Agency has reported that the project will have a budget of US\$100m. [Read more.](#)

Where are Afghanistan's cement plants planned?

Acting Mines and Petroleum Minister Shahabuddin Delawar said that plants are planned in Herat, Jawzjan, Kandahar, Logar and Parwan Provinces. When operational, the plants should make Afghanistan self-sufficient in its cement supply.

How clinker is stored in a cement silo?

Cement Storage: The clinker is crushed into cement and sent to the cement steel silo for storage. Cement steel silos usually adopt a sealed structure to ensure that the cement quality is protected from moisture and contamination.

Can cement be stored and transported in bagged or bulk form?

Cement can be stored and transported in bagged or bulk form. In the construction of large and medium-sized projects, due to the large demand for cement, bulk cement is usually used, and cylindrical silos (i.e. cement steel silos) are used to improve the mechanization of cement storage and transportation.
