

300wh power station in China in Myanmar

Overview

How many hydropower stations are there in Myanmar?

In Myanmar, hydropower has a potential of more than 100GW, however, only 3% was utilized till 2020. There are nearly 27 hydropower stations in Myanmar connected to the national grid for power supply within the country. The country has several upcoming projects, which are expected to support the growth of the segments.

Who owns Sino-Myanmar power station?

The Sino-Myanmar power station is owned by the Yunnan company, which holds 80pc of the joint-venture. The company will be fully in charge of the project construction, operation, and management for 40 years after its completion, and then transfer it to the Myanmar government.

How much electricity does Myanmar get from power stations?

Under all the joint-venture agreements, Myanmar is entitled to get 10 to 15 percent of the annual electricity generation from the power stations free of charge.

Where is powerchina located?

Located in Magway Province, Myanmar and with a total installed capacity of 40.28 MWp, the power station is projected to generate 64.64 million kWh of electricity for the grid on average per year. Since the start of the project, POWERCHINA has completed various tasks, such as power agreement signing and land leases.
