

# **60kWh Solar Container for Marine Use in Male**

## Overview

---

Does Eco Marine Power have a solar PV system?

Eco Marine Power has initiated a series of evaluation trials for its Aquarius Marine Solar Power system, along with the initial set of various PV module technologies.

What marine solar power solutions are available?

Both these marine solar power solutions include the flexible Aquarius MAS (Management and Automation System). This compact marine computer monitors the performance of a solar power array & battery pack, logs data, switches equipment on/off, calculates vessel emissions, records fuel consumption and displays system alarms.

Can solar panels be installed on a bulk cargo ship?

Can shipping containers and solar power be used as portable energy solutions?

The mobility of shipping containers and solar power presents opportunities for portable energy solutions. Mobile power stations can be created by equipping containers with solar panels, batteries, and inverters. These stations can be deployed for temporary events, construction sites, or emergency power needs.
