

Albania RV modified solar container lithium battery pack

Overview

Will Albania build its first lithium ion battery plant?

Chief Executive Officer Bruno Papaj said the firm signed a memorandum of understanding with an Indian investor on the construction of Albania's first lithium ion battery plant. The facility is planned to come online within two years, with 100 MW in annual capacity.

Why does Tirana need Vega Solar?

Furthermore, the country is exposed to drought and often turns to emergency imports. Tirana-based Vega Solar, which develops, installs and maintains rooftop solar power plants, saw an opportunity to contribute to diversification with battery energy storage systems.

Does Albania have a hydropower plant?

Hydropower makes up almost the entire domestic output in Albania, which helps balancing to a point, but it has no pumped storage hydropower plants. Furthermore, the country is exposed to drought and often turns to emergency imports.

Will Vega Solar invest in renewables?

Vega Solar, founded six years ago, earlier said it would pursue large renewables investments. The companies didn't provide any other details. As for the rest of the region that Balkan Green Energy News covers, there is still very little battery production capacity, but several major projects are underway. They include mining investment proposals.
