

Australia MW energy storage container

Overview

What is 640mwh energy storage project?

640MWh energy storage project, one of the large-scale energy storage projects in Queensland. First project to be constructed using 5MWh energy storage containers in Australia with 25 years warranty. Partners with INTEC Energy Solutions to deliver full EPC solutions and 25 years of operation and maintenance services.

What is EnergyAustralia's energy storage project?

The energy storage project will provide EnergyAustralia with a natural hedge against such market fluctuations and help stabilise energy prices and ensure a more resilient energy supply. "At EnergyAustralia, our purpose is to lead and accelerate the clean energy transformation for all," said EnergyAustralia Managing Director, Mark Collette.

Will hithium supply 5 MWh containers for Woolsloga battery energy storage system?

China-based integrated energy storage solutions company Hithium will supply 128 units of 5 MWh containers for the 222 MW / 640 MWh (2-hour) Woolsloga battery energy storage system (BESS) being built in Queensland by London-based Lightsource bp.

Why is Australia investing in energy storage in Q1 2025?

The CEC supports the underlying policy goal of improving demand flexibility across the grid to lower costs, make better use of renewable generation and reduce bills for all consumers. Australia's remarkable run of investment commitments to energy storage projects continued in Q1 2025. Learn more from our report.
