# Backup Energy Storage Power Station

## Overview

---

What is the best portable power station for home backup?

Key Details: Need something that grows with your power needs?

The Jackery Explorer 2000 Plus kit is hands-down the best expandable portable power station for home backup. The base unit plus one expansion battery already delivers over 4kWh, and serious users can push that all the way up to 24kWh with parallel stacking.

How do I choose a backup power station?

Below are the key factors that will help you decide which model fits your backup power goals best: Battery capacity, measured in watt-hours (Wh), tells you how much energy the power station can store. A higher Wh means longer runtimes for your appliances. For basic needs like lighting, routers, or phone charging, 500-1000Wh is usually enough.

What are battery storage power stations?

Battery storage power stations are usually composed of batteries, power conversion systems (inverters), control systems and monitoring equipment. There are a variety of battery types used, including lithium-ion, lead-acid, flow cell batteries, and others, depending on factors such as energy density, cycle life, and cost.

What is a whole home power backup solution?

For more extended power outages (and greater energy security), the advanced EcoFlow Whole Home Power Backup Solution combines two EcoFlow DELTA Pro portable power stations with a double voltage hub. With a combined output and storage capacity of 7200W, you can fully power the average home for 1-2 days.

## Backup Energy Storage Power Station
