

Bangkok 5g base station power module procurement bidding

Overview

What is the 5G infrastructure market in Thailand?

The 5G Infrastructure market in Thailand is a pivotal component in the country digital transformation. With the rollout of 5G networks, Thailand is poised to experience a significant boost in connectivity, enabling IoT, smart cities, and improved mobile services.

Why is Thailand launching 5g-a & 6G?

By making these frequencies available, Thailand aims to advance telecommunications infrastructure to support the development of 5G-A and set the stage for future 6G systems. The current licences for the 2.1 GHz and 2.3 GHz bands, held by NT, will expire in September 2025.

When was the first 5G spectrum auction held in Thailand?

2.2 Thailand's 5G spectrum auction Thailand's first 5G spectrum auction was held in February 2020 for frequencies in the 700 MHz, 2.6 GHz and 26 GHz bands. Both AIS⁴³ and TrueMove H⁴⁴ deployed their 5G networks after the spectrum auction in early 2020, using their newly purchased 2.6 GHz spectrum.

What are the benefits of bidding on Thailand tenders?

Bidding for tenders in Thailand is extremely lucrative for companies of all sizes. Thailand tendering authorities release contracts for most of the products and services procured by them benefitting small, medium and large enterprises. A few of the benefits of bidding on Thailand tenders are -
