

Brunei Wastewater Treatment Plant Uses Solar-Powered Container DC Power

Overview

What are the new solar water treatment technologies?

In this review, the new solar water treatment technologies, including solar water desalination in two direct and indirect methods, are comprehensively presented.

Can solar energy be used in wastewater treatment?

The work within SHC Task 62 shows solar energy's great potential in wastewater treatment. Nevertheless, there is still the need to take further action. Using separation technologies such as membrane distillation in combination with solar process heat represents an innovative leap in the industry.

Is Brunei a solar country?

Tenaga Suria Brunei, launched in 2010 with a capacity of 1.2 MWp, and Brunei Shell Petroleum's 3.3 MWp plant, launched in 2021 to power its headquarters, are also part of the country's solar portfolio. 30 MW solar plant on remediated landfill in Kg Belimbing, developed by Malaysia's Solarvest, Serikandi and Brunei government's Khazanah Satu.

When will Brunei's largest solar power plant launch?

Deputy Minister of Finance and Economy Dato Hj Khairuddin (centre) officiated the groundbreaking at the remediated landfill site. Brunei's largest solar photovoltaic power plant (SPVPP) with a 30-megawatt (MW) capacity in Kg Belimbing is slated to launch by the end of 2026, following a groundbreaking ceremony on August 11.
