

# Brunei solar Power Generation System

## Overview

---

Will Brunei build a solar power plant in 2022?

Construction of the solar power plant is slated to start in 2022, with \$50,000 earmarked to conduct a land survey in Kg Sg Akar. Both the Bukit Panggal and Belingus solar farms will produce 15 MW of solar energy. Apart from the three new solar power plants, Brunei will expand its solar energy project in Seria from 1.2 MW to 4.2 MW.

How many solar panels are there in Brunei?

The 3.3MW BSP Flagship Solar PV plant at Jalan Tengah, Seria, is Brunei's second solar power plant. It was completed in 2021 and started to produce electricity on 30 March 2021. With almost 7,000 solar panels, it is capable of generating power equivalent to 600 houses. Solar panels installed on a Brunei government building in Temburong.

Will Brunei generate 100 mw of solar energy by 2025?

Brunei has set a target of generating 100 MW of solar energy by 2025 as part of the government's initiative to slash greenhouse gas emissions by 20 percent over the next 10 years. With the vast majority of the country's electricity generated by gas-powered plants, Brunei has one of the highest annual carbon footprint per person in the region.

Who owns the solar plant in Brunei?

The solar plant in Brunei is currently operated and maintained by BSP. Agnete Johnsgaard-Lewis, BSP Managing Director and Shell Country Chair in Brunei, shared this information.
