## Overview

---

What is an inverter battery?

The inverter battery and inverter cables are usually connected to the power connection of the home. An inverter battery for home can be any rechargeable or secondary or storage battery (electrochemical power source) like a lead-acid battery, nickel-cadmium battery or Li-ion battery.

What kind of batteries do inverters use?

Its modular and stackable battery packs provide the storage alone but are "inverter agnostic," which is the industry's way of saying they work with anyone. Its most popular battery is the 3.8 kWh battery module, which can be stacked and nestled next to your inverter on the wall next to your electrical panel.
