

Camping power station factory in Estonia

Overview

Why is Estonia building a Battery Park?

Estonia has initiated construction of what will be the largest battery park in Europe that will significantly contribute to the synchronization of the Baltic power grids with Europe by 2025: this project of Evecon, Corsica Sole and Mirova will enhance the energy security and will boost renewables in Estonia.

Why are lithium-ion batteries gaining space in Estonia?

When countries are trying to reduce their greenhouse gas emissions for meeting the climate targets, the role of energy storage would be crucial. Lithium-ion batteries are also gaining space in Estonia to reduce dependence on other countries for power and to ensure a cleaner energy mix in line with its goal to build more battery parks.

How has Lithuania made a decisive move toward energy security for Estonia?

Lithuania has made a decisive move toward energy security for Estonia with the beginning of construction of what will be the biggest battery park in the European mainland.

Why is energy storage important for Estonia?

Energy storage is also critical for the ability of Estonia to achieve zero-emission levels for electricity generation by 2030.
