

Canadian solar Glass House BESS

Overview

How much will Canadian Solar invest in Bess?

Canadian Solar will invest an initial US\$384 million into the lithium-ion battery cell and battery energy storage system (BESS) manufacturing factory at 140 Logistics Drive, Shelby County. The first phase investment will total 3GWh of annual production capacity although the company has not revealed if that is split between cells and BESS.

How many MWh will Canadian Solar provide?

Canadian Solar will provide 705MWh of its BESS technology for three projects in Nova Scotia and another 498MWh for a project in Texas.

Where is Canadian Solar based?

Canadian Solar was founded in Canada and is listed on the Nasdaq Canada, but its manufacturing and majority of its management team are in China. The investment is being made through its e-Storage subsidiary which currently manufactures BESS in China for deployment largely (to-date) in North and South America, the UK and Australia.

How does Canadian Solar ensure a safe supply chain?

Canadian Solar closely examines our supply chains to ensure goods imported are not mined, produced or manufactured, wholly or in part, with prohibited forms of labor, i.e., slave, convict, indentured, forced or indentured child labor. Copyright © Canadian Solar. All rights reserved
