

Canberra Energy Efficient Solar Systems

Overview

How many solar panels are installed in Canberra?

Over 11,281 small-scale systems have been installed in Canberra, ACT with a collective capacity of 10,631 kW. Around one in ten households in Canberra, ACT, generates solar power through rooftop installations, contributing to the territory's goal of reaching and maintaining 100% renewable energy.

What is a solar rebate in Canberra?

This program helps Canberra's pensioners and veterans install energy efficient products in their home, such as solar PV systems, air conditioners and hot water heat pumps. Eligible homeowners can receive a \$2,500 rebate after a solar installation, as well as another \$2,500 rebate after a hot water heat pump or air conditioner installation.

Do you need a solar company in Canberra?

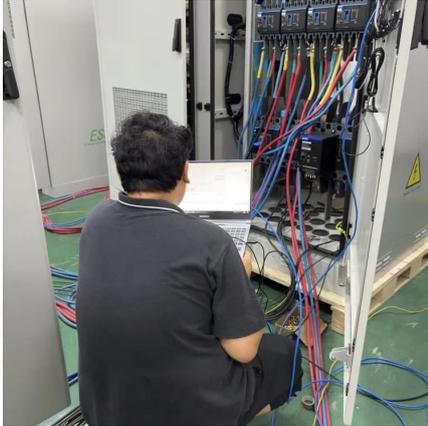

Solar panels are an increasingly popular feature in many homes. With the opportunity to offset upfront costs with savings on your energy bills, solar panels are beginning to seem like a no-brainer for many Canberrans. To help you take advantage of solar power, you need a reliable solar company to install your panels and system.

Are solar panels a good investment in Canberra?

With Canberra having so many sunny days a year, solar panels are a great way to reduce your energy bills and contribute to a brighter future. And while solar power has always been beneficial, today it's more accessible and cost-effective than ever.
