

Capacity specification standard of industrial and commercial energy storage cabinet

Overview

What is bslbatt ESS-grid cabinet series?

BSLBATT ESS-GRID Cabinet Series is an industrial and commercial energy storage system available in capacities of 200kWh, 215kWh, 225kWh, and 245kWh. It offers peak shaving, energy backup, demand response, and increased solar ownership capabilities.

What is a battery energy storage system (BESS)?

BESS (Battery Energy Storage System) is a technology that stores electrical energy in batteries and releases it when needed. It is widely used in power grids, commercial and industrial facilities, and even homes to improve energy efficiency, reduce costs, and enhance power reliability.

What is a Bess energy storage system?

We offer energy storage systems of 50kWh~1MWh, used for commercial and industrial applications. BESS provides a wide range of technical, economic, and environmental benefits, making it a key enabler of the transition to a cleaner, more resilient, and efficient energy system. Max. Charge/Discharge Rate The project began in Ontario, Canada in 2020.

What is bslbatt 200kwh Battery Cabinet?

BSLBATT 200kWh Battery Cabinet separates the battery pack from the electrical unit for enhanced safety. Integrates active and passive fire protection with PACK-level, group-level, and dual-compartment safeguards. Large capacity, patented LFP module with CCS integration, 16kWh per PACK, and >95% efficiency per cycle.
