

Carrying a portable power supply

Overview

Can you bring portable chargers & power banks in your Carry-On?

Studies show that easy access to chargers leads to a quicker and more organized travel experience (Smith, 2020). By adhering to these strategies, you can ensure that your chargers are safe and ready for use whenever needed, enhancing your travel experience. Yes, you can bring portable chargers and power banks in your carry-on.

Can you bring a power bank on a plane?

The TSA allows both electronic device chargers and portable power banks. Chargers must be placed in carry-on bags, not checked luggage. Portable power banks must not exceed 100 watt-hours. Larger power banks between 100 and 160 watt-hours require airline approval. Chargers do not need to be removed from carry-on bags during screening.

Can you bring a portable charger on a plane?

Yes. Portable chargers and power banks are usually allowed on flights, but there are restrictions on where they can be packed. Most airlines allow portable chargers packed in your carry-on luggage but not in checked luggage or any bags that will go in the hold.

Can I bring a charger in my carry-on bag?

You can bring chargers in your carry-on bag according to Transportation Security Administration (TSA) guidelines. The TSA allows both electronic device chargers and portable power banks. Chargers must be placed in carry-on bags, not checked luggage. Portable power banks must not exceed 100 watt-hours.
