

Cross-base station communication solution

Overview

What is a passive is-integrated base station?

In particular, integrating passive IS into the base station (BS) is a novel solution to enhance the wireless network throughput and coverage, both cost-effectively and energy-efficiently. In this article, we provide an overview of IS-integrated BSs for wireless networks.

Does a multi-base station architecture support multi-target sensing?

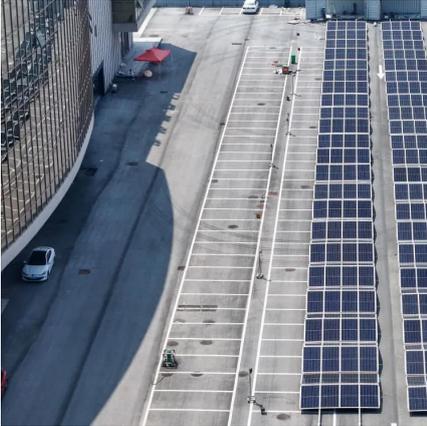

This paper considers a multiple base station (BS) architecture to support the comprehensive services of data transmission and multi-target sensing. In this context, a cooperative BS assignment and resource allocation (CBARA) strategy is proposed in this paper, aiming at jointly optimizing the communication and sensing (C&S) performance.

What is communication and sensing (C&S)?

communication and sensing (C&S), ISAC enhances resource utilization efficiency, thereby reducing both capital and operational expenditures. Moreover, the inherent synergy between C&S within ISAC frameworks can mutually enhance their performance, leading to improved overall system capabilities , .

Cross-base station communication solution

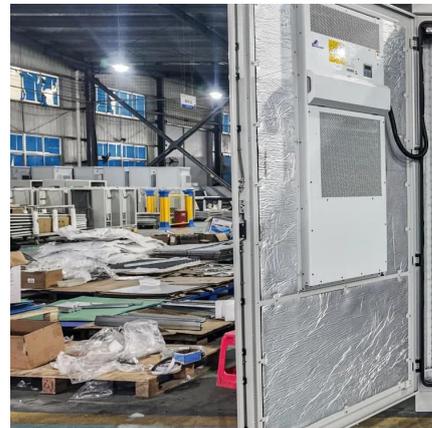

[Multi-objective cooperative optimization of ...](#)

This paper develops a method to consider the multi-objective cooperative optimization operation of 5G communication base stations and Active Distribution Network (ADN) and constructs a ...

[Cooperative Base Station Assignment and Resource ...](#)

Oct 2, 2025 · Numerical results show the effectiveness of the proposed solution, which achieves a performance improvement of 117% in communication rate and 40% in sensing accuracy, ...

[Integrating Base Station with Intelligent Surface for 6G ...](#)

Jan 13, 2025 · Intelligent surface (IS) technology is promising for sixth-generation (6G) wireless networks, which can effectively reconfigure the wireless propagation environment using ...

[Multiuser Communications with Movable-Antenna Base Station ...](#)

Dec 8, 2023 · This paper studies the deployment of multiple movable antennas (MAs) at the base station (BS) for enhancing the multiuser communication performance. First, we model the

...

Communication Base Station

The design and implementation of Tian-Power's communication backup solution aims to ensure the normal operation of the communication system in the event of a power outage or power ...

...

Integrated Sensing and Communication enabled ...

Nov 27, 2023 · Driven by the intelligent applications of sixth-generation (6G) mobile communication systems such as smart city and au-tonomous driving, which connect the ...

Joint Communication and Positioning of UAV with Multiple Base Stations

Jun 12, 2025 · In terrestrial communication networks without fixed infrastructure, unmanned aerial vehicle (UAV)-mounted mobile base stations (MBSs) provide an efficient solution to achieve ...

Joint Base Station Selection and Power Allocation Design for

Apr 26, 2024 · Cell-free (CF) networks can reduce cell boundaries by densely deploying base stations (BSs) with additional hardware costs and power sources. Integrating a reconfigurable ...

Advanced Optical-Radio Communication System for 5G Base Stations ...

Dec 26, 2024 · This research aims to create trustworthy, fast communication technologies for 5G and beyond. The design investigates the possibilities of Free-Space Optical (FSO) ...

Joint Base Station Selection and Power ...

Apr 26, 2024 · Cell-free (CF) networks can reduce cell boundaries by densely deploying base stations (BSs) with additional hardware costs and power ...

Solutions for Base Station Components . Syensqo

Dec 4, 2025 · Materials to Support Base Station Enhancements Ryton® PPS is an ideal solution for antennas in base stations. It offers superior stiffness and mechanical integrity, thermal and ...
