

# **Dakar Uninterruptible Power Supply Wholesale**

## Overview

---

Which is the best uninterruptible power supply manufacturer?

With 20 years of R&D experience in UPS industry, SCU, one of the biggest uninterruptible power supply manufacturers, provides 6KVA to 900KVA UPS products that are highest levels of availability, reliability and efficiency. SCU UPS products cover applications from IT rooms to large data centers and industrial plant and so on.

How does ups work if a power supply fails?

Normally UPS converts AC power from Utility to DC for charging the connected battery. When the utility power fails, UPS electrical device works like backup power, and UPS will switch to battery mode, inverts DC to AC power and continue to run the equipment.

How does an industrial uninterruptible power supply work?

While industrial uninterruptible power supply can work like a back-up power source, which converts utility power from AC to DC and provides DC current to battery for storage. When utility power fails, power stored in the battery will be discharged to supply the equipment.

How long does a battery UPS take to power a data center?

UPS power supply depends on the load power (kW) and battery capacity (kWH) equipped with UPS. SCU UPS system manufacturer can offer solution for back up time from minutes to hours. As a reliable lithium-ion UPS data center solution provider, SCU provided lithium-ion battery ups for data center solutions for a data center in Indonesia.
