

European manufacturer of 20-foot mobile energy storage containers

Overview

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a containerized battery energy storage system?

Provide users with a peak-valley electricity price arbitrage mode and stable power quality management. Shipped in a 20ft container, Sunwoda's containerized battery energy storage system (BESS) is an all-in-one energy storage solution for various scenarios.

What is a mobile solar container system?

The mobile solar container system includes solar panels, storage batteries, inverter, mounting brackets, and accessories. Solar panels collect energy from the sun and store it in the battery bank, and the inverter converts it to AC power for use.

What is a 20 ft container?

20ft container with energy over 4MWh and battery life extended more than 20% Using a standard 20-foot container, high energy density, small size, and convenient transportation Support plug-and-play combination of two containers, flexibly suitable for the application of large energy storage power stations.
