

Fiji energy storage equipment exports

Overview

What are Fiji's top exports?

Fiji's top ten exports accounted for almost three-quarters (74.4%) of its total global export value. Fossil fuels, including petroleum, is the fastest growing of the top ten export categories, growing by 175.6% from 2021 to 2022. The second highest improvement in export sales was in sugar, including confectionery, which grew by 66.3%.

What services does Fiji import?

While on the services payments front, the major imports for Fiji are transport services, largely attributed to freight charges. To better facilitate trade and simplify the flow of goods and services with its trading partners, Fiji has entered into a number of trade agreements.

Does Fiji have a good energy supply?

Like for many other SIDs Fiji's geographical situation means that affordable and accessible energy supply is a challenge. The Island state depends heavily on imported fossil fuel to meet its energy needs, nevertheless, renewable energy sources, mainly hydro, account for 55% of the country's total energy production.

What is Fiji's international trade in services statistics?

Data ranges from 1605.4 to 7024.6. Fiji's International Trade in Services Statistics [ITSS] provides information on the value of import and export of services between Fiji and the rest of the world. The information used in this release is from the International Trade in Services Survey and Administrative Sources.
