

Fixed type of folding containers used in New Zealand ports and terminals

Overview

How popular is a foldable container?

As previously noted, the foldable container is now used at more than 60 depots and ports and on 15 shipping lines and growing in popularity all the time. “The shipping industry is typically very conservative,” said Broekhuis.

What is a foldable cargo container?

A foldable cargo container looks like a traditional container, but it offers the opportunity of saving space when it’s not being used. This type of container can be folded vertically and horizontally with the port’s standard machinery and, of course, handled with container spreaders. Why do we need to save space in shipping cargo?

.

What is a 4fold foldable container?

So it is that the 4FOLD foldable container from Holland Container Innovations (HCI) is providing a novel solution that not only reduces CO2 but offers a number of additional benefits — more efficient to ship empties back (by a ratio of four to one!), space saving, and faster handling at the terminal.

What is a dedicated shipping container?

Dedicated shipping containers are used for the transport of general cargo and cargo that is temperature-sensitive. The International Maritime Organization (IMO) introduced standardization of containers in the late 1960s’ aimed at bringing consistency in the loading, unloading, and transportation of such containers.

What Are Foldable Containers For Shipping Cargo?

Enter The Foldable Container How Does A Foldable Container Work?The Downside of Foldable Containers While the containers from HCI are of the collapsible type, those from Staxxon fold vertically, in the company's words 'accordion style'. To fold an HCI container, an MHE would lift the roof of the container, and then the sides are folded inward. The roof is then lowered gently to rest on the folded sides creating a kind of horizontal flat-pack. Fou See more on marineinsight Pacific Ports
