

France 5G communication green base station construction section 1 project

Overview

Which telco has the largest 5G network in France?

To know more: Having deployed France's largest 5G network by number of base stations, Free is today announcing that it has become the country's first telco to offer 5G 3.5 GHz SA (Standalone Access) on its public network on a national scale.

Does free have 5G in France?

Available in almost 10,500 municipalities, it already covers nearly 95% of the French population. Today, Free is announcing that it has deployed 5G SA (Standalone Access) on the 3.5 GHz frequencies of its public network on a national scale. By doing this, it has become the first mobile operator in France to offer this technology to its subscribers.

What is 5G SA?

5G SA is a 5G network that uses fully dedicated and standalone infrastructure and does not rely on any 4G infrastructure, unlike 5G NSA (Non-Standalone Access), which is built on existing 4G core network infrastructure with 5G laid on top. The best of 5G.

Does free offer 5G SA?

5G SA is available as of now and at no extra cost for subscribers on the 5G Free Mobile Plan. To get it, they need to have a compatible phone and activate the option in their online Subscriber Area. Free already offers a range of phones that are compatible with 5G SA, including Samsung phones that have been tested by Free's teams.
