Georgia Solar Base Station Quote

Overview

Our calculator uses real installation data from Georgia homeowners in Atlanta, Savannah, Augusta, and beyond. See actual costs based on thousands of local projects—not national averages or estimates.How much do solar panels cost in Georgia?

As of October 2024, the average solar panel system costs $2.63/W including installation in Georgia. For a 5 kW installation, this comes out to about $13,173 before incentives, though prices range from $11,197 to $15,149. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in Georgia?

While a 5 kW system will only cost you $13,173 in Georgia, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia?

.

Why are solar panels so popular in Georgia?

Solar panels have become increasingly popular in the state of Georgia. In recent years, solar energy installation has risen steadily in response to its multiple benefits for both residential homes and commercial businesses. Solar panels provide an alternative energy source, reducing dependence on natural gas and electricity.
