

Germany Hamburg solar panel brand wholesale

Overview

Who is Solara?

SOLARA is the strong brand for solar technology (photovoltaic) from northern Germany for over 20 years. As a specialist provider of stand-alone systems (e.g. mobile solar systems for various vehicles such as caravans and sailing boats), made in Germany, we guarantee a reliable power supply. Clean, emission-free electricity from renewable energy.

Does Germany have solar power?

Most solar power in Germany exclusively consists of photovoltaics (PV) systems only. Germany has only a little interest in concentrated solar power (CSP) for it does not use photovoltaics and this solar technology requires much higher solar insolation as compared to the PV system.

Where are the largest solar farms in Germany?

The largest solar farms of Germany are located in Neuhardenberg, Templin and Meuro with solar capacities of over 100 MW. Moreover, these PV technologies were accounted for an estimated 6.2 to 6.9 percent of Germany's net electricity generation in the year 2016.

Where are solar modules made?

The solar modules of SOLARA are the product of German workmanship and are manufactured exclusively in Germany. Thanks to the high quality of the materials used and their manufacturing, they are extremely robust and durable.
