# Havana Container Energy Storage BESS Price

## Overview

---

In 2025, average turnkey container prices range around USD 200 to USD 400 per kWh depending on capacity, components, and location of deployment. How much storage capacity does a Bess container have?

Driven by bigger cells sizes and other technology advances, the industry is also increasingly seeing 20-foot BESS containers with 5MWh storage capacity from system integrators and vertically integrated battery manufacturers. Some are even exceeding that capacity, such as CATL with its 6.25MWh Tener solution.

How much does a Bess DC block cost?

Similarly, BNEF found in its annual survey that BESS DC blocks in 4MWh or larger enclosures came in 27% cheaper on average than those in the 2MWh to 4MWh range, at US\$128/kWh versus US\$176/kWh. The firm's survey found that the price differential is expected to continue into 2025.

How much does a Bess contract cost?

One recent 16GWh BESS tender run by state-owned EPC firm China Power Construction Group saw bids averaging at US\$66.3/kWh while another competitive solicitation from oil and gas firm PetroChina received bids ranging from US\$59/kWh to US\$139/kWh for the 2.5GWh of contracts on offer, as reported last week by Energy-Storage.news.
