

# **How much does solar panels cost in Khartoum**

## Overview

---

How much do solar panels cost?

Solar panels cost about \$30,000 on average—but often pay for themselves several times over through 25-30 years of electricity savings. Why trust EnergySage?

As subject matter experts, we provide only objective information.

How much does a 12 kW solar panel installation cost?

The average cost of a 12 kW solar panel installation on EnergySage is \$29,649 before available incentives. You'll typically save anywhere from \$37,000 to \$148,000 over 25 years by installing solar panels. Solar panels are just 12% of the total cost of a solar panel installation.

How much does a solar installer cost?

A well-regarded solar installer with premium warranty offerings will often charge more—and it will usually be worth the money. Installer costs are about the same as equipment at around \$13,650 or 46% of the total installation. Labor is only about 7% of installer costs and profit is generally around 11%.

What is NREL's solar-plus-storage cost benchmarking work?

This work has grown to include cost models for solar-plus-storage systems. NREL's PV cost benchmarking work uses a bottom-up approach. First, analysts create a set of steps required for system installation.
