Overview

What is the energy storage project in Belgium?

The main energy storage project in Belgium is the construction and operation of an offshore “energy atoll” (essentially a manmade offshore pumped-storage facility), for which the Electricity Act has been modified in 2014 (see below), in order to support offshore wind-generated electricity production.

What is the largest battery storage project in Belgium?

Construction has started on what will be the largest battery storage project in Belgium at 25MW/100MWh when completed later this year. Nala Renewables’ lithium-ion battery energy storage system (BESS) will come online at metals conglomerate Nyrstar’s zinc smelting operation in Balen, in Belgium’s Flemish region, by the end of 2022.

Is there a business case for energy storage in the Netherlands?

As mentioned above, there have been two major barriers, or stumbling blocks, to the business case for energy storage in the Netherlands to date. As of the beginning of 2022, one of those has been eliminated, to the great relief of GIGA Storage and others in the industry.
