

Irish RV Outdoor Power BESS

Overview

What are the market opportunities for Bess in Ireland?

For market access for BESS in Ireland, there are currently three revenue streams: the DS3 system services market, the capacity market and ISEM energy trading opportunities. With each of these markets having its own challenges, it can come down to how an individual developer forecasts them and their risk appetite.

Is Cushaling the first four-hour grid-scale Bess in Ireland?

Statkraft claims Cushaling is the first four-hour grid-scale BESS in Ireland, and it is co-located with a wind asset. Rethinking the market.

How will EirGrid support Ireland's TSO?

It will also support Ireland's TSO EirGrid in ensuring network stability by delivering fast-acting system services as more non-synchronous renewable generation comes online. Additionally, by securing a 10-year capacity market contract, the project will contribute towards energy security in Ireland.

How good is Ireland's energy storage strategy?

Smith pointed out that Ireland's energy storage strategy, published in 2024, was "quite positive." A lot of high-level plans and a technology agnostic outlook. "Unfortunately, we haven't seen a lot of progress on those actions which is a problem we are trying to address," said Smith.
