

Is Sierra Leone s energy storage project green

Overview

What is the sogre initiative & how does it help Sierra Leone?

The SOGREA initiative directly supports Sierra Leone's Energy Transition and Green Growth Plan (ETGGP), launched in November 2024 under the Presidential Initiative on Climate Change, Renewable Energy, and Food Security (PICREF).

Does Sierra Leone have a low energy access rate?

Sierra Leone currently has one of the lowest energy access rates globally, with only 36% of its population connected to the grid and a mere 6% in rural areas. The SOGREA Initiative supports the government's aim to increase the share of renewable energy in the country's energy mix to 35% by 2030. "By 2027, Sierra Leone will be fully illuminated.

Will Sierra Leone be fully illuminated by 2027?

This limited access impacts healthcare, education and job creation. To address this, the government has set a target to raise renewable energy use to 35 per cent by 2030 and electrify rural areas by 2027. "By 2027, Sierra Leone will be fully illuminated.

What does etggp mean for Sierra Leone?

The ETGGP aims to achieve universal energy access in Sierra Leone by 2040, powered by clean energy sources, requiring an estimated 132 MW in mini-grids and a total investment of USD 547 million for mini-grid and solar home system targets.
