

# **Italian solar module project construction**

## Overview

---

How many solar PV projects are being built in Italy?

GreenIT and Galileo sign agreement on eight solar PV projects in Italy. GreenIT continues its growth in renewable energy with an additional 140 MW portfolio of new solar photovoltaic plants developed by Galileo. The projects will be built in three regions in Southern, Central and Northern Italy.

Is Ric energy ready to build a photovoltaic plant in Italy?

Madrid/Milan, November 28, 2024 – RIC Energy has commenced the construction of four of its eight planned photovoltaic plants in Italy, which have reached “Ready To Build” status.

Why is Galileo launching a Renewable Project in Italy?

In Italy, Galileo is developing a further pipeline of onshore and offshore renewable projects accounting for a grand total of more than 2,000 MW in the country. Efficient synergies with such high-calibre partners like GreenIT can be strong propellers for the further expansion of our activities across Europe.”.

When will Ric energy's photovoltaic project be completed?

Construction is expected to be completed by February 2025. The four photovoltaic plants currently under construction will have a total installed capacity of 5.3 MWp, representing over 50% of RIC Energy’s initial portfolio to achieve RTB status in Italy. The operation of the remaining portfolio is scheduled for summer 2025.
