

Kyiv cooperates with EK on energy storage project

Overview

Why is Ukraine investing €140 million in energy storage?

The €140 million total investment aims to enhance power grid stability, bolstering Ukraine's energy security and independence. The project will be the biggest operational energy storage portfolio in Eastern Europe at the time of commissioning.

Did Ukraine get a loan to build a battery energy storage complex?

Solar panels of a rooftop in Kyiv, Ukraine. March 2, 2023. (Julia Kochetova/Bloomberg via Getty Images) This audio is created with AI assistance Ukraine's largest private energy company DTEK secured a \$72-million loan to build one of the largest battery energy storage complexes in Eastern Europe, the company said on June 3.

How many MWh will Ukraine's energy storage project provide?

The project is split between six energy storage sites across Ukraine and will provide 400 MWh of dispatchable energy - enough to supply short-term power for 600,000 homes The project will be the biggest operational energy storage portfolio in Eastern Europe at the time of commissioning.

Will a new battery storage facility strengthen Ukraine's grid?

Sept. 10, 2025. (Bohdan Nazarenko/DTEK) Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said.
