What is a hybrid solar-wind project in Portugal?

A hybrid solar-wind project in Portugal. Image: EDP Renewables EDP Renewables, the clean power arm of Portuguese energy company EDP, has commissioned its second solar-plus-wind hybrid project in Portugal, which boasts a generation capacity of 43.8MW.

Can a battery storage project be retrofitted in Portugal?

Published in December, this legal update simplifies the process for retrofitting existing renewable energy projects with battery storage and/or hybrid generation components. Curtailment is no longer a theoretical risk in Portugal.

Is Portugal's renewables sector maturing fast?

Portugal's renewables sector is maturing fast — but the permitting regime hasn't always kept pace. Retrofitting operational assets with battery storage and hybrid technology offers huge potential, but strict regulations have slowed the progress so far.

Which solar-plus-storage projects are available for public consultation?

The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's Participa portal.
