

Lithium power station factory in America

Overview

Where is Panasonic's new lithium-ion battery factory located?

Panasonic has officially opened its new cylindrical lithium-ion battery factory in De Soto, Kansas, US. Spanning 4.7 million square feet, this facility is now one of the largest gigafactories in North America.

Is Panasonic opening a new lithium-ion battery factory for electric vehicles?

DE SOTO, Kan. – Panasonic Energy Co., Ltd., a Panasonic Group company, today announced the official opening of its new cylindrical lithium-ion battery factory for electric vehicles (EVs).

Where is the largest automotive battery plant in North America?

Located in De Soto, just outside Kansas City in the United States, the facility marks the opening of one of the largest automotive battery plants in North America. The grand opening ceremony was held on July 14 to commemorate the milestone.

Which state has the largest EV battery factory?

#1 - Tesla Gigafactory Nevada will be the largest EV battery factory in the U.S. in 2025 with an expanded capacity of 100 GWh (up from 37 GWh). The states with the most EV battery factories are Michigan, Tennessee, South Carolina, and Georgia, which are known as the "Battery Belt".
