

Lithium power station factory in Angola

Overview

How many non-listed companies are launching lithium projects in Angola?

Up to now, only a few non-listed companies have launched lithium projects in the country. Tyranna has confirmed that initial data from Angolan Minerals, from field campaigns in 2019 and 2021, has been encouraging. Further studies may begin soon.

Are Angola's lithium resources in the limelight?

The mineral is essential for the manufacture of batteries, a key element in the energy transition, and has become highly sought after. However, Australian Securities Exchange (ASX)-listed junior Tyranna Resources may put Angola's lithium resources in the limelight.

Could Tyranna Resources put Angola's lithium resources in the limelight?

However, Australian Securities Exchange (ASX)-listed junior Tyranna Resources may put Angola's lithium resources in the limelight. In mid-May the company struck a deal to buy 80% of Australian company Angolan Minerals, which has been quietly exploring the Namibe lithium project in the southwest of the country.

Is Angola a good place to invest in lithium?

Despite boasting extensive and diverse mineral resources, up to now there has been limited international investment in Angola's lithium in comparison to its neighbours, such as the DR Congo, Namibia, Zimbabwe and Botswana.
