Mauritania Solar Container 60kWh

Overview

What is Mauritania doing now?

Mauritania has just inked its first independent power producer contract which is a \$300 million agreement that was signed with Iwa Green Energy that will foresee the development of the 60-megawatt Mauritania Hybrid Solar-Wind Plant. Furthermore, the renewable energy project marks a milestone in Mauritania.

How much does IWA green energy cost?

Name: Iwa Green Energy Hybrid Renewable Power Plant Location: near Nouakchott and Boulenouar Developer/Operator: Iwa Green Energy Cost: approximately \$300 million Total installed capacity: 220MW of wind and solar Target commissioning: September 2026 The facility will come onstream in September 2026.

Why is Mauritania partnering with private actors?

“Undertaking this project with private actors showcases their confidence in the Mauritanian government’s commitment to diversifying the production base and providing sustainable energy sources to serve the economy,” stated the Economy and Finance Minister Sid’Ahmed Ould Bouh at the signing ceremony in Mauritania’s capital, Nouakchott.
