What are IQ8 series microinverters?

The high-powered, smart grid-ready IQ8 Series Microinverters are designed to match the latest-generation high-output PV modules. IQ8 Series Microinverters have the highest energy production and reliability standards in the industry, and with rapid shutdown functionality, they meet the highest safety standards.

Do IQ8 series microinverters need Enphase installer app?

Commissioning of IQ8 Series Microinverter systems requires Enphase Installer App version 3.31.0 or higher. IQ8 Series Microinverters cannot be mixed together with previous generations of Enphase microinverters (IQ7 Series, IQ6 Series) on the same IQ Gateway. No enforced DC/AC ratio and the maximum input power.

Can IQ7 microinverters be added to a site?

IQ7 Series Microinverters cannot be added to a site with existing IQ8 Series Microinverters on the same gateway. Mixed system of IQ7 and IQ8 will not support IQ8-specific PCS features and grid-forming capabilities.

Are IQ8 microinverters UL listed?

Connect PV modules quickly and easily to the IQ8 Series Microinverters that have integrated MC4 connectors. IQ8 Series Microinverters are UL Listed as PV rapid shutdown equipment and conform with various regulations when installed according to manufacturer's instructions. \*\* Meets UL 1741 only when installed with IQ System Controller 2 or 3.
