Mini Base Station Version

Overview

What's new with base station 2.0?

The highest quality tracking has gotten even better with Base Station 2.0, now with improved range, field of view, and scalability. Bigger play spaces, more room to explore. The new single-rotor design provides a wider FOV and increased range. Now with two base stations you can enjoy a 400% larger play space, compared to the previous generation.

What is a 4G & 5G LTE base station?

Covering all common 4G and 5G LTE bands, the base stations feature software-defined radio, allowing great flexibility of operation and future upgrade paths. The CableFree Advanced 4G and 5G LTE SDR (software-defined radio) Small Cell Base Station – Outdoor Version – is suitable for a wide variety of applications.

Does CableFree offer a 5Ghz base station?

CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators and private customers to build LTE without requiring access to licensed spectrum. Band 46 covers 5150 – 5925MHz and uses TDD-LTE technology. Contact CableFree for details.
