

# **Namibian railway station uses 30kWh collapsible shipping containers**

## Overview

---

What is TransNamib doing in Namibia?

Energy Capital & Power spoke with Webster Gonzo, CEO of TransNamib, about the company's efforts to support upcoming energy and mining activities and transform Namibia into a major logistics hub within the SADC region. What recent developments has TransNamib made in modernizing Namibia's rail infrastructure?

.

What will TransNamib do with Walvis Bay & Kranzberg?

TransNamib is excited about the recently completed extensive rail rehabilitations on the line stretching from Walvis Bay to Kranzberg. The plan is to further extend the project in phases from Kranzberg to Otjiwarongo, and then onwards to Tsumeb and Grootfontein.

How will the Trans-Kalahari Railway line expand the railway network?

The expansion of our rail network is primarily envisioned through the Trans-Kalahari Railway line. This line will run eastward from here towards Gobabis, reaching the border of Botswana and providing a crucial international connection. In Gobabis, we are creating a logistics hub as an inland port to efficiently handle the incoming cargo.

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.
