

New Energy Storage Mergers and Acquisitions

Overview

How much money did energy storage companies make in 2022?

Corporate funding of energy storage companies exceeded US\$26 billion worldwide in 2022, a 55% jump from 2021's total US\$17 billion. Masdar has acquired battery storage developer Arlington Energy in a bid to expand its presence in UK and European renewables markets.

Which energy storage companies got the most VC funding in 2023?

UK-headquartered Zenobē Energy attracted the most venture capital (VC) funding of any company in the energy storage industry during 2023, as found by Mercom Capital. Oil and gas major Shell is putting its residential battery storage and virtual power plant (VPP) company sonnen up for sale, according to German outlet Handelsblatt.

Why should you consolidate resources in the battery industry?

By consolidating resources, organizations can accelerate R&D, ensure security of supply, and manage the risks associated with scaling unproven technologies. Recent months have seen a slew of consolidation and merger news in the battery industry. In this piece, we'll talk about seven recent battery mergers that have shaken up the industry.

Can new energy industries promote social-economic transition?

With the aim of achieving carbon neutral, major countries such as the United States, Germany, Japan, and China, have treated the development of new energy industries as one of the key options for further promoting social-economic transition.
