

Niger solar Module Power Generation Project

Overview

Who financed a solar power plant in Niger?

The European Union, the French Development Bank and the government of Niger co-financed the installation. A French consortium made up of Akuo and Sagecom has finished building a 30 MW solar power plant in Gorou Banda, Niger. The Niger government had initially planned the project to have a capacity of 50 MW.

What is the proposed price of the solar plant in Niger?

The government of Niger is negotiating a PPA for a 20 MW solar plant with a French company. However, this project is facing opposition due to the proposed price of USD 0.165/kWh, which is significantly higher than imports from Nigeria but lower than the utility domestic generation costs.

Are there any off-grid solar energy systems in Niger?

Yes, there is considerable experience of off-grid solar energy systems in Niger. These include off-grid PV electrification, water pumping, and solar water heating systems. The main decentralised renewable energy system promoted in Niger for rural electricity is solar PV.

Where is solar energy used in Niger?

Solar energy is well-suited for use in Niamey and Zinder, located at lower latitudes, as they show less variability in solar radiation throughout the year. Niger has a long history of solar energy use, which began in the mid-1960s with the establishment of the Centre National d'Énergie Solaire (National Solar Energy Centre; CNES).

Niger solar Module Power Generation Project

[Niger solar energy project: Stunning Fr.21.76 Billion Backing](#)

Oct 14, 2025 · The government of Niger has officially approved a landmark Fr.21.76 billion (approximately \$35.6 million) project in the Maradi region, signaling a major step

Niger's New Solar Projects Pave the Way for a Diversified Energy ...

May 11, 2023 · The Solar Projects will be linked to the South-Central area of Niger's electricity grid, with plans to interconnect it with the Western grid zone, serving Niamey, by 2026 through ...

[Securing Electricity in Niger Through ...](#)

Dec 4, 2023 · The Niger Solar Electricity Access Project (NESAP), aimed at enhancing electricity access in rural and peri-urban areas of Niger ...

[EOI issued for construction of 60 MW solar PV power plant ...](#)

State-owned Niger Electricity Co. (NIGELEC) has sought consultants to carry out feasibility, environmental, and social impact studies for the construction of a 60 MW solar plant with ...
