

# Off-grid solar container exchange and sales

## Overview

---

Can you sell off-grid solar power to the grid?

Excess solar power generated off-grid can either be skimmed off and stored into batteries for later use or exported to the grid, which is only possible if you are near the grid lines or when it is logistically viable to sell the extra power to the grid.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
