

Off-solar container grid inverter 1kva

Overview

What is a 1kva solar inverter?

Our 1kVA solar inverter are particularly suitable for locations where there are long power cuts or for those who are worried about their heavy electricity bills. For such locations and peoples, UTL's 1kVA solar inverter can generate up to 30% more power than any other standard solar inverter.

What is an off-grid solar inverter?

Off-grid solar inverters are such inverters that work efficiently without depending on the conventional utility grid. UTL's off-grid solar inverters don't require grid power to work.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.
