

# Quotation for a 50kW Intelligent Photovoltaic Energy Storage Container Project

## Overview

---

What makes up a complete 50kVA solar power plant?

The following configurations make up a complete 50kva 50kW solar power plant: 1)87pcs 16mm<sup>2</sup>\*35CM,6pcs 16mm<sup>2</sup>\*2M battery cable,20M 16mm<sup>2</sup> cable with battery terminal. Optional solar mounting support, PV combiner boxes, and cables. PVMARS provides a complete turnkey PV energy storage system solution.

What is a 5kw solar storage system?

The 5kw solar storage system was installed in 2018. We were initially attracted to the idea of using lithium batteries at night while solar power supply our house during the day. In addition, it can also provide seamless grid failure protection.

How much does a 50kw solar power plant cost?

50kW solar power plant prices US\$34,195 – Gel battery design. (Valid for 30 days). Note: If you need a quote for lithium battery design, please contact [solar@pvmars.com](mailto:solar@pvmars.com) to obtain it. Below are the product parameters and pictures of the 50kw solar plant. Strong anti-cracking, heat spot protection.

What kind of battery does a 50kw solar plant use?

The gel battery of this 50kw solar plant is designed with 90pcs 12v200ah batteries with a total capacity of 216kWh. In addition, PVMARS also offers lithium battery options. If your installation location is limited and you want more power, our small-volume 216kWh lithium battery is also an excellent choice.
