

Rack-mounted solar container battery cabinet base station

Overview

What is a rack mount battery system?

Our stackable, rack mount battery systems are designed for residential, commercial, industrial and utility scale applications. It provides reliable power storage solutions and is suitable for a variety of applications. It has a long lifespan and can be used in a wide variety of environments, making it an ideal choice for any energy storage needs.

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

What are battery enclosures & cabinets?

Battery enclosures and cabinets are a safe way to store batteries and to protect them from the elements as well as providing a line of defense against theft.

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.
