

San Salvador Communications 5g base station ranking

Overview

Which countries offer 4G LTE services in El Salvador?

The mobile network covers 93 percent of the territory and 92 percent of the population, with 4G LTE services being introduced in 2019 after the allocation of suitable spectrum by SIGET. Today, América Móvil, Grupo IBW, General International Telecom Limited, and Tigo El Salvador offer high-speed data and internet services.

Does El Salvador have a mobile network?

By 2018, over 680,000 subscribers had used this service. The telecom penetration rate in El Salvador is approximately 153 percent, indicating a high number of mobile phones relative to the population. By the first quarter of 2016, 82 percent of the country's territory had access to mobile network coverage, mainly in urban areas.

Who provides telecommunication services in Salvador?

Initially, telecommunication services were provided solely by the state through the National Administration for Communications (ANTEL). However, in 1996, the Salvadorian Congress created the Electricity and Telecommunication General Superintendence, and in 1997, the Telecommunication Law was enacted, paving the way for privatization.

What is mobile number portability in El Salvador?

Mobile Number Portability was introduced in 2015, allowing subscribers to change their mobile operators without losing their phone numbers. By 2018, over 680,000 subscribers had used this service. The telecom penetration rate in El Salvador is approximately 153 percent, indicating a high number of mobile phones relative to the population.
