

# **Set up a solar container communication station inverter ESS system**

## Overview

---

What is energy storage system (ESS)?

33 1. ESS introduction & features What is ESS?

An Energy Storage System (ESS) is a specific type of power system that integrates a power grid connection with a Victron Inverter/Charger, GX device and battery system. It stores solar energy in your battery during the day for use later on when the sun stops shining.

How do I install a victron energy ESS system?

Hub-2 \v3\ Assistant - ESS Assistant 24 8.3. Hub-4 Assistant - ESS Assistant 24 9. ESS Quick Installation Guide 26 9.1. Step 1 - Understand how a Victron Energy ESS system works 26 9.2. Step 2 - Decide what type of ESS 26 9.3. Step 3 - Select the system hardware 27 9.4. Step 4 - Install all equipment.

Do ESS inverters need a grid meter?

All loads and (optional) grid-tie inverters must be installed on the AC out in a system without a Victron grid meter. See earlier in the manual for more information. ESS design and installation manual Page 9 Configuration More information Redflow ZCell Chapter 6.2. 4.3.3. Inverter AC output in use.

How many inverters/chargers do I need in my ESS system?

There must be at least one inverter/charger (MultiPlus/Quattro) and one GX device such as the Cerbo GX or Ekrano GX in the system. Other components can be added when needed; see the ESS system design chapter.

## Set up a solar container communication station inverter ESS system
