

Singapore s first batch of 5G solar container communication station inverters completed

Overview

Will SingTel and Ericsson build a 5G port in Singapore?

. Singapore, 21 November 2024 – Singtel and Ericsson today announced a partnership to deploy 5G advanced connectivity solutions at Tuas Port in Singapore. This is in support of PSA Singapore's (PSA) plans to build the world's largest fully automated port by the 2040s to meet the rapidly rising demand for global transshipment.

Will Singtel deploy a dedicated 5G network at Tuas port?

Singtel has drafted-in Ericsson to deploy a dedicated 5G network on a slice of its public 5G network at Tuas Port in Singapore, the new greenfield 'mega port' development that will eventually engulf and replace existing shipping terminals at the Port of Singapore. It will also deploy private 5G networks for critical-grade port operations.

How many maritime 5G base stations are there in Singapore?

MPA said five Maritime 5G base stations have been installed and operationalised as of 2024. Up to seven more base stations will be operationalised by 2025 to complete Maritime 5G coverage in all Singapore port's major fairways, anchorages, terminals and boarding grounds.

How will Singapore's maritime 5G network improve connectivity?

"With the enhancement of coverage of the Maritime 5G network, users of the Singapore port will experience stronger and more stable connectivity. The enhanced coverage is also expected to unlock new 5G-enabled maritime services and innovations," it said on its website.
