Sodium-ion energy storage project in Eastern Europe

Overview

Is sodium-ion storage coming to the European battery industry?

“So far, sodium-ion storage has not yet arrived in the European battery industry,” says Maximilian Fichtner from the Institute of Nanotechnology (INT) of KIT and Director of the Helmholtz Institute Ulm, a research facility operated jointly by KIT, the University of Ulm and other partners, where research is also being carried out for ENTISE.

Is sodium-ion battery technology suitable for the European energy and mobility transition?

The project “Sodium-Ion-Battery Deutschland-Forschung – SIB:DE FORSCHUNG”, aims to evaluate the suitability of sodium-ion battery technology (SIB) for the European energy and mobility transition to speed up industrial implementation.

Are sodium-ion batteries a sustainable alternative to lithium-based storage?

Sodium-ion batteries are considered a more sustainable alternative to lithium-based storage. Sodium is not only inexpensive and abundant, but is also easy to recycle. The challenge, however, is to convert the new technology into industrially usable and scalable cells.

Sodium-ion energy storage project in Eastern Europe

[Home Sustainable sodium-ion battery technology](#)

Press release - Oct 9, 2025 Sodium-ion battery project releases explainer video ATENA+ is scaling up sodium-ion batteries to make energy storage safer, more affordable, and ...

[Stora Enso Joins ATENA+ to Advance European Sodium-Ion ...](#)

Mar 5, 2025 · Stora Enso is proud to be part of the EU-funded (Horizon Europe) ATENA+ project a groundbreaking initiative aimed at strengthening Europe's battery value chain by developing ...

Funded project ATENA+

May 2, 2025 · The EU-funded project ATENA+ is a four-year initiative to revolutionise energy storage systems with sustainable, high-performance ...

[Stora Enso Joins ATENA+ to Advance ...](#)

Mar 5, 2025 · Stora Enso is proud to be part of the EU-funded (Horizon Europe) ATENA+ project a groundbreaking initiative aimed at ...

[EPISODE - European Produced Sustainable SODIUM-Ion ...](#)

The EPISODE project has set itself the task of developing battery cells and battery storage systems based on sodium-ion technology.

Funded project ATENA+

May 2, 2025 · The EU-funded project ATENA+ is a four-year initiative to revolutionise energy storage systems with sustainable, high-performance sodium-ion battery technology.

Eastern European sodium ion energy storage project

Dec 3, 2025 · Overview The SPRINT project will gather 8 industries, 2 SMEs and 8 academic partners (incl. one associated partner) for 46 months to optimise and demonstrate two ...

Advanced Technology for stationary Energy storage systems in NA-ion

Nov 26, 2025 · ATENA+'s main objective is to contribute to improve the competitiveness of the European Battery industry by demonstrating a new generation of safe, sustainable-by-design, ...

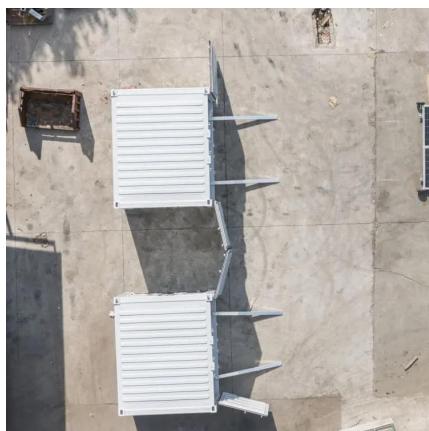

CyberGrid , SPRINT , EU project , Sodium-ion batteries

Oct 14, 2025 · The SPRINT project aims to revolutionize the stationary energy storage sector by advancing sodium-ion battery technology.

[ENTISE project: Sodium-ion batteries for Europe](#)

Oct 10, 2024 · -- KIT Karlsruhe (@KITKarlsruhe)
October 23, 2024 This is where the "ENTISE" project (Development of Sodium-Ion Technology for Industrially Scalable Energy Storage) ...

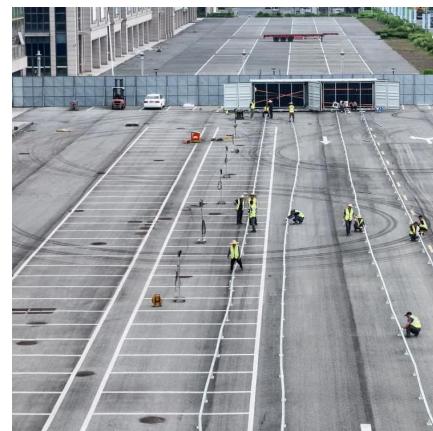

[EPISODE - European Produced Sustainable ...](#)

The EPISODE project has set itself the task of developing battery cells and battery storage systems based on sodium-ion technology.

[European Sodium-Ion Battery Initiatives in 2024](#)

Jul 6, 2024 · The primary goal is to develop a home Sodium-ion Battery. This ambitious project is set to conclude in June 2024. Such efforts highlight the collaborative nature of Europe's ...

[CyberGrid , SPRINT , EU project , Sodium-ion ...](#)

Oct 14, 2025 · The SPRINT project aims to revolutionize the stationary energy storage sector by advancing sodium-ion battery technology.

Next-Gen Batteries for a Greener Europe

Jan 1, 2025 · Next-Gen Batteries for a Greener Europe SPRINT (Sustainable European sodium-ion batteries for stationary applications featuring improved PRocesses, Inherently safe and ...

European Sodium-Ion Battery Initiatives in 2024

Jul 6, 2024 · The primary goal is to develop a home Sodium-ion Battery. This ambitious project is set to conclude in June 2024. Such efforts highlight ...
